PROFILE

I'm Muhammad Ammad Younas, An aspiring Android developer focused on building efficient native applications, with experience in web scraping and Python automation.

EDUCATION

University of Lahore

Bachelor of Science in Computer Science

- CGPA: 3.8+ / 4.0

Sargodha, Pakistan

2022 – 2026

TECH STACK

Kotlin

Jetpack Compose

Android SDK

XML

Retrofit

JSON

Restful API

Firebase

Python

Selenium

Scrapy

BeautifulSoup

Requests

Git

Github

Docker

Linux

PROFESSIONAL EXPERIENCE

Native Android Developer

Self-Employed / Remote

2024 – Present

Pakistan

- Developing native Android applications with Kotlin and Jetpack Compose, integrating RESTful APIs via Retrofit.

Desktop Application Development & Web Scraping

Self-Employed / Remote

Jun 2022 – Dec 2023

Pakistan

- Developed Python-based desktop utilities and automation scripts using Selenium, Scrapy, and BeautifulSoup to streamline repetitive web workflows and build robust data extraction pipelines.

PROJECTS

Appointment Booking App (Semester Project) | Flutter, Dart, Firebase

- Developed a cross-platform scheduling application with a responsive Flutter UI, utilizing Firebase for secure authentication and real-time data synchronization.

Under Byte (FYP) | Kotlin, Jetpack Compose

- Engineered a secure, ephemeral Android chat application with self-destructing rooms, utilizing MVVM Clean Architecture and custom LSB steganography to hide encrypted messages within images.

Odoo Scraper | Python, BeautifulSoup, Requests

- Developed a secure, ephemeral Android chat application using Kotlin and Jetpack Compose, featuring self-destructing rooms and real-time messaging.
